Re: Public Water System Monitoring Requirements  
Federal ID No.: 070000013

Notice of Violation

Dear Chairman Green:

The U.S. Environmental Protection Agency, Region 7, recognizes the Sac & Fox of Missouri in Kansas as a Community Public Water System, as defined by the Safe Drinking Water Act 40 CFR § 141.2. The purpose of this Notice of Violation of the SDWA is described below.

Violation: Failure to Monitor – Total Coliform Rule 40 CFR § 141.21 (a)

The EPA records indicate that the Sac & Fox of Missouri in Kansas Public Water System failed to perform the required monthly Total Coliform sampling in the month of October 2015. The Sac & Fox Public Water System sampled on November 4, 2015, and that sample was absent for Total Coliform. The EPA has determined that there are no further actions required at this time.
